DETAILED ACTION

EXAMINER'S AMENDMENT

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

The application has been amended as follows:

In the claims

Cancel claims 16-20.

Allowable Subject Matter

The following is an examiner's statement of reasons for allowance:

The prior art of record does not disclose or suggest either in singularly or in combination the following limitations and other elements in the claims. Reference Sugawara et al. (US 6,576,933) do not disclose:

- The first II-VI compound semiconductor region includes a second II-VI compound semiconductor layer containing zinc and selenium and a third II-VI compound semiconductor layer containing zinc and tellurium;
- The first II-VI compound semiconductor layer is provided between the metal electrode and the third II-VI compound semiconductor layer to prevent atoms in

the metal electrode from reacting with atoms in the II-VI compound semiconductor layer, and the third II-VI compound semiconductor layer is provided between the first II-VI compound semiconductor layer and the second II-VI compound semiconductor layer.

Therefore, the above references do not disclose the claimed invention of present application and claims 2-15 are allowed.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
